

The Mars Society
1111 W. 8th Ave., Unit A
Lakewood, CO 80215
www.marsociety.org

Welcome!

Let me take this opportunity to thank you for your interest in a very worthwhile cause - sending humans to Mars! I appreciate you joining with like-minded people who want to do their part in seeing this mission become a reality.

Mars Society chapters provide members with a chance to engage the public through education and outreach. Current examples include:

- Participating in local astronomy and space events
- Giving presentations and demonstrations at schools, clubs and community venues
- Social media promotion of your activities

Mars Society chapters promote the goal of establishing a permanent human presence on the Red Planet. With that in mind, each member-created chapter engages the public in ways unique to their locality. New ideas are certainly welcomed!

Please know that we are here to assist you with advice, direction and the resources available to us in order to accomplish the Mars Society mission.

Let us know how we can help.

Sincerely,

Lucinda Offer
Executive Director
The Mars Society

Human Exploration and Settlement of Mars
